

Handle with care.

*Ensure safe handling of flammable liquid
with FM Global's online training course*

Handling Flammable Liquid.

Flammable liquid represents a great risk to many facilities. *Knowing how to identify hazards and implement safe practices can help you prevent loss incidents from flammable liquid fire.*

To register for the course, visit <http://training.fmglobal.com>.

It's free, and only available to FM Global clients. It takes less than one hour to complete. And, it can be accessed 24 hours a day, seven days a week from any computer connected to the Internet. No downloads required!

When you complete this course, you will be able to:

- Articulate the unique hazards associated with flammable liquid
- Describe how to mitigate the hazard of flammable liquid
- List the key challenges associated with each of the following areas of operation and the protection measures needed to control them:
 - Storage
 - Dispensing
 - Transport
 - Processes
- Locate the information and resources provided by FM Global to help understand how to handle flammable liquid
