

One stray spark is all it takes to ignite disaster.

Yet *all* hot work losses are preventable.

Learn to perform hot work safely and effectively with the online training course, Managing Hot Work Using FM Global's Hot Work Permit System.

It's free. It takes less than one hour to complete. And, it can be accessed 24 hours a day, seven days a week from any computer connected to the Internet! No downloads required!

Managing Hot Work Using FM Global's Hot Work Permit System identifies the inherent dangers of hot work operations and drives home the importance of a sound management plan—all from the convenience of your computer screen!

Geared toward facility personnel responsible for performing or overseeing hot work operations, the course can be incorporated into in-house training programs or used by an outside contractor working for your company. There's no limit to the number of employees a single client can register.

Best of all, managers can track the performance and progress of those taking the course! ✦

To register for the course, visit <http://training.fmglobal.com>.
