

One shut sprinkler valve and five minutes.

That's all it takes for fire to destroy your facility.

What can YOU do?

Learn to manage impairments safely and effectively with our online training course,

*Managing Impairments Using FM Global's Red Tag Permit System.*

It's free. It takes less than one hour to complete.

And, it can be accessed 24 hours a day, seven days a week from any computer connected to the Internet!

No downloads required!

The first in a series of free online training courses designed to help clients address common—yet costly—human factor hazards, *Managing Impairments Using FM Global's Red Tag Permit System* drives home the importance of an impairment management program.

Geared toward facility managers, maintenance managers and their staffs, the course can be incorporated into in-house training programs or used by an outside contractor working for your company. There's no limit to the number of employees a single client can register.

For more information, visit [www.fmglobal.com/seminars](http://www.fmglobal.com/seminars) or contact Karen Freedman, manager, client training, at +1 (1)781 255 4620 or [karen.freedman@fmglobal.com](mailto:karen.freedman@fmglobal.com).

Best of all, the performance and progress of those taking the course can be reported back to managers!

To register for the course, visit <http://training.fmglobal.com>.
