

### *Immediate Medical & Surgical Expenses*

The Board's Commercial General Liability policy can elect to incur *Immediate Medical & Surgical Expenses*. This no fault coverage is utilized when the student is not covered by any other plan such as the parents employee benefits and/or student accident insurance.

Reimbursement is provided for medical/dental expenses incurred on **the date of the injury**.

Common expenses submitted for consideration under this section of the policy are ambulance bills and same day emergency dental surgery.

Not all Boards wish to submit this type of claim. Please contact your Board office to inquire if this coverage is available to you.
